BBT-2000

**All-Natural, Safe, and Effective
Bed Bug Eradication
and Preventative Treatment puts
you in control of the application**

Swepe-Tite Saves You Money

Professional exterminators charge hundreds of dollars per room as well as lost revenue while the infested room is out of inventory for up to a week. With BBT-2000, you are in control of your time and money! Application of our all natural insecticide does not require a pesticide license. Even with the worst of infestations, your room can be treated and all bugs eliminated within a 24 hour period of time. Preventative treatments can be administered on your time schedule and will give the peace of mind which comes with being in control of your inventory. Implement a BBT-2000 program today and start saving money.

Exclusive America's Best Franchisee Benefits

- Partner specific customer service

About Swepe-Tite

The Swepe-Tite Brand

In early 2011 the ownership group that includes Rite-Kem (a speciality chemical manufacturer in business since 1997) saw a need for a supply of all-natural environment-friendly products. The same commitment to service and quality that has been the foundation and success of Rite-Kem was cultivated in to a new sister company Swepe-Tite. Like Rite-Kem, Swepe-Tite exists to provide its customers the best product at the best possible price.

Perhaps nothing can cause more trouble in the hotel, hospitality, and housing business than bed bugs. These nasty creatures hide in the crevices of bedding, furniture, and accessories just waiting to make a feast of your guests. In the day of internet complaints, a single guest with who finds a bedbug infestation can leave you with a reputation that will take years to overcome. It has been said that there are two types of rooms in the hospitality business -- those who have bed bugs and those who will. At Swepe-Tite we don't think that needs to hold true. BBT-2000 is a broad spectrum insecticide that not only eliminates bed bugs, but many other crawling and flying insects as well. When used as directed BBT-2000 prevents infestations saving you money, and embarrassing reviews.
